

Transform your business with confidence: Support through implementation and beyond

When you choose GenetiQ for your lumber and building materials business, you're not just adopting industry-leading ERP software – you're forging a partnership dedicated to your success. Our support programs provide the enhanced assistance your team needs to transition with confidence and maximize your return on investment.

Your success journey

Implementing new ERP software is a pivotal step in transforming your business. That's why every GenetiQ implementation is paired with customized, hands-on support from our experts. Together, we ensure:

Confident, well-trained users

Empower your team with the skills and knowledge to excel.

Enhanced operational performance

Drive growth and stay ahead in a competitive market.

Optimized business processes

Align technology with your goals for maximum efficiency.

A seamless transition

Reduce disruption and maintain operational continuity.

Flexible support options

GenetiQ offers a range of customized support programs designed to meet the unique needs of your business during and after ERP implementation. Whether you need foundational assistance or advanced optimization, our programs include:

Personalized training: Reduce disruption and maintain operational continuity.

Expert process guidance: Navigating critical workflows with ease.

Dedicated support: Your questions answered, every step of the way.

Partnering for growth

Our commitment doesn't end after implementation. As your business evolves, GenetiQ offers continued support to help you thrive:

On-demand expert advice

Solutions customized to your business challenges.

System fine-tuning

Continuous improvement for better performance.

Additional training

Keeping you up to date with new features or changes.

Ongoing assistance

Reliable support whenever you need it.

Seize your growth opportunity: Next steps with GenetiQ

We offer a proven track record of empowering businesses with efficient processes, accurate data, and the tools needed for expansion.

It's time for you to join the ranks of successful Lumber and Building Materials Supply companies that have transformed their operations with us.
